

2nd ANNUAL OHIO QUICK RESPONSE TEAM, DEFLECTION, & OUTREACH TRAINING SUMMIT

January 26 & 27, 2023

The Summit Hotel | Cincinnati, OH

On behalf of the Ohio Deflection Association (ODA) Planning Team, we "Thank You" for attending the 2nd Annual Ohio QRT & Deflection Training Summit. Without your hard work and remarkable commitment to the field, this event would not be possible! Thank you again for all that you do.

The Ohio QRT and Deflection Training Summit is full of community partners and presenters from all over the nation, offering valuable training and guidance on outreach and deflection. The ODA Planning Team would like to offer our sincerest gratitude to our summit presenters; with their guidance and expertise, we are one step closer to ensuring deflection efforts are at the forefront nationwide.

We hope you take a few things away from this summit:

- Knowledge and inspiration on creating and/or enhancing your deflection team. Knowledge is the most powerful tool to inflict change; inspiration will drive that change.
- Develop a clear understanding of deflection programs' importance and the positive impact of community partnerships and collaboration. Unity is strength, allowing for successful outcomes to be achieved.
- Remember to take a beat to recognize self-care. Dealing with those undergoing great suffering can lead to exhaustion and burnout. It is best for everyone. If you take a second to restore yourself, it allows for a long-term perspective.

As we continue to grow as a chapter, please know that your continued work and support are vital to the field of deflection. You are making a difference, and you are genuinely appreciated. Together we are stronger. We look forward to seeing you next year!

Sincerely,

Daniel Meloy *President*

Thomas Fallon *Treasurer*

Nicole Jenkins *Secretary*

Meagan Gosney *Chairman*

David Schiering *Fundraising*

Terry Smith *Sponsorship & Awards*

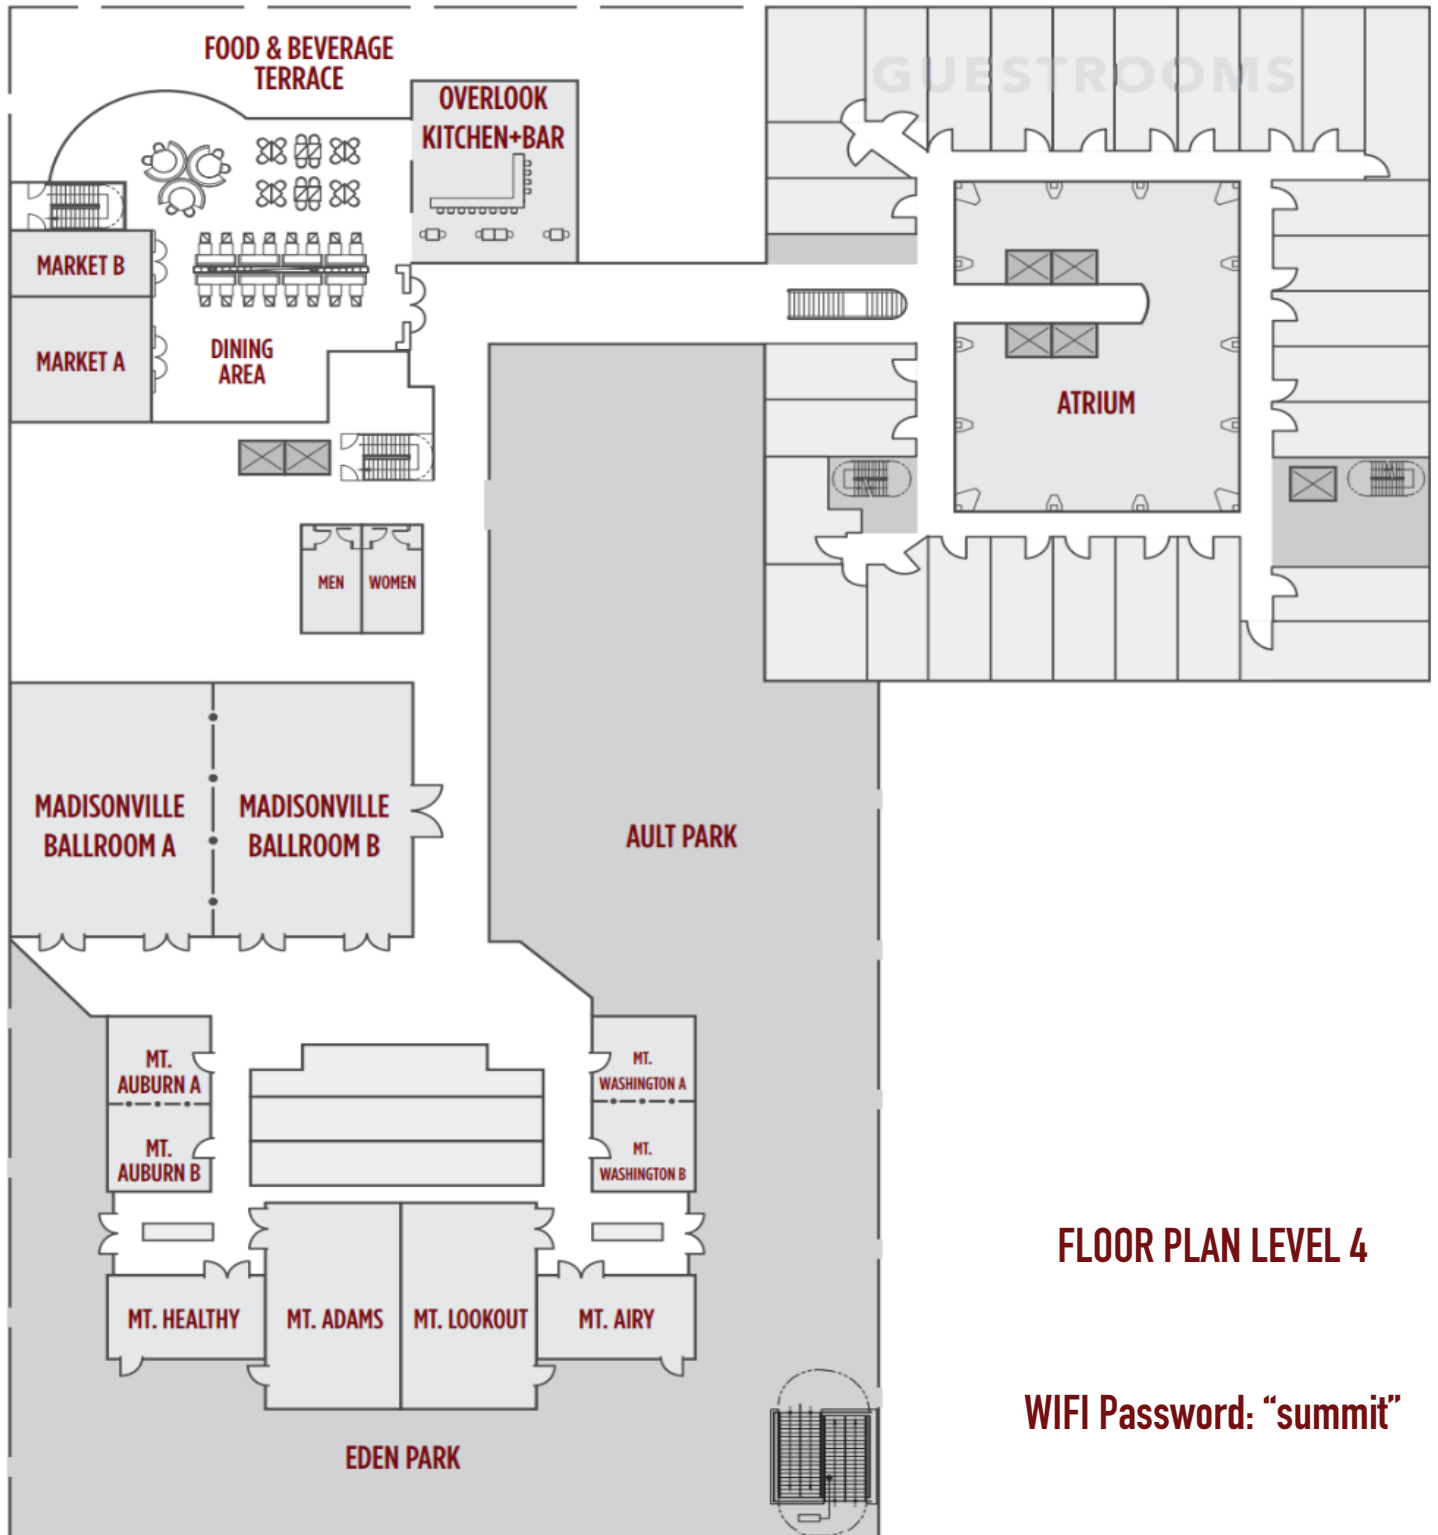

Updated 1/24/2023

Overview of Tracks

- **Task Force Teams & Outreach**
 - Deflect individuals from the judicial system and into treatment we are getting individuals into facilities that can better manage their mental health and substance use disorder than most jail facilities can
 - Develop pathways to provide support to individuals struggling with substance use disorder and deflecting them from the criminal justice system
 - Breakdown the negative stigma between law enforcement and community
- **First Responders: Law Enforcement/ Fire & EMS**
 - What is Deflection & why do we collaborate
 - Describe and demonstrate strategies to help reduce and manage stress, strengthen resilience, and maintain physical and emotional wellness
 - Identify the need for critical response debriefings and to understand the correlation between a reduction in hazardous drinking when critical response debriefings occur
- **Peer Support/Behavioral Health**
 - The importance of connecting those in need to someone with whom they can relate
 - Identify other aspects of the field that can benefit from having lived experience
 - Identify the role and impact of trauma and stigma in addressing substance use disorder
- **Coalition Building, Public Policy, & Program Management**
 - Identify key intervention activities, best practices, and lessons that will be of value to inform future efforts and the broader field
 - Design and demonstrate an integrated approach for and comprehensive treatment to minimize gaps and barriers to long term recovery
 - Describe specific documentation of deflection activities and data needed to share with staff, deflection team members, decision-makers, community leaders and community members that communicate the importance of the activities and outcomes of deflection programs
- **HIPAA, Data, Technology, & Innovation**
 - Analyze current infrastructure to determine areas for improvement and better collaboration
 - Gain an understanding of HIPAA and Part 2, including implications for deflection programs
 - Explore best practices for documentation that, protects privacy, maintain compliance, and support effectiveness
- **Harm Reduction & Public Health Strategies**
 - Harm Reduction approach, how to engage the high-risk population and how to keep them engaged
 - Examine the impact of stigma from individuals effected by substance use disorder
 - Conceptualize the need for harm reduction and the direct correlation to community health

THE SUMMIT

State of Deflection in Ohio

Ruth H. Simera, M.Ed., LSW
Executive Director
Coordinating Centers of Excellence
Department of Psychiatry

Daniel P. Meloy
President Ohio Deflection Association
Chief of Police and Director of Public Safety (Ret.)
O2SL and QRT National, Director of Operations

Updated 1/24/2023

9:35 AM - 10:15 AM

Veterans Justice Outreach (VJO) & Bold New Direction: Building Partnerships to Deflect Veterans from Jail

Carrie Bartunek
Director, External Affairs
Ohio Attorney General's Office

Katie Stewart, L.C.S.W.
National Coordinator, Veteran's Affairs
Veteran's Justice National Program

Seana Creech
Veteran's Justice Outreach Specialist
Cincinnati Veteran's Affairs

Jac A. Charlier
Moderator

Learning Objectives:

- Identify and evaluate resources available to support veterans in their community, including courts, housing, VA services, and resources from the state.
- Collaborate with VJO Specialists to better identify veterans and address their unique needs.
- Develop pathways to provide support to veterans and deflecting them from the criminal justice system.

10:20 AM - 11:00 AM

Officer & First Responder Self-Care

Tamara J. Bartek
Director of Probation Services

Learning Objectives:

- Participants will be able to identify a minimum of five cognitive and five physical warning signs of advanced liver disease from alcoholism.
- Participants will be able to identify two law enforcement specific treatment agencies for substance use disorder and the need for treatment specific to officers.
- Participants will be able to identify the need for critical response debriefings and to understand the correlation between a reduction in hazardous drinking when critical response debriefings occur.

11:00 AM - 11:10 AM

Break

11:15 AM to 12:00 PM

Breakout Session #1

Deflection 101

Multi-track | Location MT. Auburn

Daniel P. Meloy
President Ohio Deflection Association
Chief of Police and Director of Public Safety (Ret.)
O2SL and QRT National, Director of Operations

Updated 1/24/2023

Learning Objectives:

- What is Deflection?
- How is Deflection different from Diversion?
- Why do we Collaborate?
- What are the "Six Pathways?"

Medications for Opioid Use Disorder, The What, Why, and How

Behavioral Health Track | Location: MT. Washington

Molly Gauntner, Med, LPC, LCDC III
Vice President Correctional Programs- Cuyahoga
Oriana House, Inc.

Allyse Hawkins, LPCC, ILCDC
Clinical Director- Treatment Teams
Oriana House, Inc.

Learning Objectives:

- Discuss the role and impact of trauma and stigma in addressing Opioid Use Disorder.
- Discuss the legal landscape with regard to medications for addiction treatment and how that is impacting the criminal justice system for arrest and booking, to incarceration reentry.
- Name the role of the currently available medications for addiction treatment and describe their different methods of action in supporting treatment and recovery.

Development & Funding of Quality Recovery Housing

Program Management Track | Location: MT. Healthy

Amy Parker, Med, LPC, LCDC III
Director of Communications and Engagement
Sunstone

Learning Objectives:

- Define challenges in recovery housing, barriers for those on medications for opioid use disorder and engaged in intensive outpatient treatment, lack of funding and stigma related to medication for opioid use disorder in recovery housing.
- Design and demonstrate an integrated approach for the recovery housing provider and comprehensive treatment provider to minimize gaps and barriers to long term recovery.
- Analyze data to emphasize the need for 90-day recovery housing funding for new residents, particularly in the case for intensive outpatient patients.

Bridging the Gap: Project Bridge

Law Enforcement/First Responder Track | Location: MT. Adams

David Marcum, Chief Investigator
Lawrence County Drug & Major Task Force
Lawrence County QRT

Detective Brad Layman
Lawrence County Prosecutor's Office
Lawrence County QRT

Updated 1/24/2023

Dick Meadows

Drug Enforcement Strategy Administrator
Ohio Department of Public Safety

Learning Objectives:

- Collaboration: to help strengthen and/or create relationships between treatment providers in your area, allowing for more resources and treatment options for clients.
- Break down the negative stigma between law enforcement and the community. Allowing officers to see an individual's willingness to escape the thralls of addiction and acceptance of treatment. This also gives those struggling with SUD the compassion law enforcement has for the community they serve.
- How to give individuals motivation to get in and complete treatment. By deflecting these individuals from the judicial system and into a treatment center, we are getting them into facilities that can better manage their mental health and SUD than most jail facilities.

Community Health Coordinator Pilot Project

Multi-Track | Location: MT. Lookout

Rachael Acra, CDCA

Community Health Coordinator, Health Counselor
Hamilton County Public Health

Will Mueller

Assistant Fire Chief
Colerain Township Department of
Fire and Emergency Medical Services

Sgt. Jamie Penley

Colerain Police Department

Learning Objectives:

- Discuss the importance of addressing psychosocial needs in addition to addiction and recovery resources.
- Explain the roles of the Community Health Coordinator within both QRT and the community referral program.
- Evaluate the capacity for jurisdictions to replicate the referral program and services.

Help for the Helpers: Preventing & Healing Secondary Trauma Through Resilience & Self-Care

Multi-Track | Location: MT. Airy

L. Faye Perkins, LISW-S, CTRP-C, CIMHP

Founder/ Director
Swellness Wellness, LLC

Updated 1/24/2023

Learning Objectives:

- Explain the biological stress response and the natural development of secondary traumatic stress that follows exposure to trauma in our work.
- Define and identify symptoms of secondary traumatic stress or vicarious trauma in oneself and others.
- Describe and demonstrate strategies to help reduce and manage stress, strengthen resilience, and maintain physical and emotional wellness.

12:00 PM - 1:00 PM

LUNCH Presented By: Cordata

Location: First Floor Gallery

1:00 PM - 2:00 PM

KEYNOTE: "A Voice for Those Lost"

Location: Madisonville Ballroom

Derek Maltz

Governmental Relations Director
Pen-Link Ltd.

2:00 PM - 2:15 PM

Break

2:20 PM to 3:05 PM

Breakout Session #2

Operating a Peer Led Quick Response Team

Multi-Track | Location: MT. Auburn

Cillian Browne

Health Program Analyst
Louisville Public Health and Wellness

Alena Huber

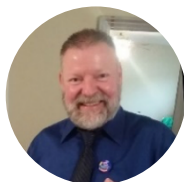

Health Program Analyst
Louisville Public Health and Wellness

Learning Objectives:

- Describe what it is like to connect with humans in the field, having had a similar experience.
- Explain the team's journey that led us to where we are today and how our different backgrounds help us bring different qualities to our jobs.
- Identify other aspects of the field that benefit from having lived experience.

QPR (Question, Persuade, Refer) Suicide Prevention Training

Behavioral Health Track | Location: MT. Washington

Larry McNab

Kentucky Suicide Prevention

Updated 1/24/2023

Learning Objectives:

- Recognize the warning signs of suicide. The sooner warning signs are detected, and help sought, the better the outcome of a suicidal crisis will be.
- Know how to offer hope. Often, the simple offering of hope and social and spiritual support can avert a suicide attempt entirely.
- Know how to get help and save a life. QPR the general public is educated about the known warning signs of a suicide crisis: expressions of hopelessness, depression, giving away prized possessions, talking of suicide, securing lethal means, and then taught how to respond and where to refer.

Harm Reduction & Outreach: A Multi-Site Approach

Multi-Track | Location: MT. Healthy

Lauren Pristo
Director of Community Engagement
COSSAP Statewide Project Manager

Liz Evans
Senior Director of Harm Reduction
CLEAR Project Site Lead

Dan Martineau, BSJS
CLEAR Site Coordinator

Sgt. Brandon Kelly, MPA
Torrington Police Department

Learning Objectives:

- Gain an understanding of community response from a multi-site approach.
- Harm Reduction approach, how to engage the high-risk population, and how to keep them engaged.
- Community-driven collaboration, partnering with local law enforcement to achieve better outcomes.

Evolution of the Hamilton County Overdose Fatality Review

Data, Technology & Innovation Track | Location MT. Adams

Philip Graham, MPH, BSN
Senior Health Coordinator
Hamilton County Public Health

Melanie Gibboney
Health Coordinator
Hamilton County Public Health

Learning Objectives:

- Demonstrate the importance of first responder participation in fatality reviews.
- Identify first responders and criminal justice partners that could be added to fatality reviews.
- Analyze the current fatality review structure to determine areas for improvement and better collaboration.
